

FITME POS

FEATURES OVERVIEW

About FitMe POS

FitMe Gym POS is a comprehensive cloud-based management solution designed for gyms, fitness centers, and sports facilities. It combines membership management, attendance tracking, POS sales, inventory control, accounting, HR, and reporting into a single platform, helping businesses streamline daily operations, improve member engagement, and drive growth across one or multiple locations.

Core Features of FitMe

Dashboard Overview

The FitMe Dashboard provides a complete snapshot of your fitness business operations, displaying sales, purchases, returns, payment summaries, and key financial metrics in real time. Interactive charts offer insights into cash flow, monthly and yearly performance, while best-seller reports highlight the most popular memberships, classes, and services.

- Sales, purchases, returns, and profit overview
- Monthly charts, cash flow, top-selling products
- Recent activities: sales, purchases, quotations

Products

- **Standard, Digital, Combo & Service Types:**

Manage memberships, training packages, retail products, and services from a single catalog.

- **Variants, Batch/Expiry, Class or Session:**

Track product variations, expiry dates, and fitness classes or session-based offerings with ease.

- **Tax, Promotional Pricing & Barcode Printing:**

Apply taxes, create special offers, and generate barcodes for efficient sales management.

- **CSV Import/Export & Product Units:**

Bulk manage product data and define units of measurement for accurate inventory control.
